

30th City Council District
Elizabeth S. Crowley (D, WF)

Hi, I'm Elizabeth Crowley. For nearly five years, it has been a privilege to represent the 30th Council District.

This is the community I was born and raised in, and I am continuing that tradition with my two sons who attend our local public schools.

I understand the unique challenges facing our middle class families. As your representative for the 30th Council District, I have a proven record for fighting for the values we believe in.

We need safe streets and city policies that support our first responders. We need every student to receive a quality public school education. We need to protect and expand healthcare options, especially for women.

And we need the City to invest in our infrastructure to create good jobs.

That has been my focus since being elected. I fought the Mayor's plan to close fire houses. I have allocated funds so all our public schools receive upgrades. I have worked with stakeholders to create a plan to improve healthcare.

It has been a privilege, and my hope is you will give me the opportunity to continue to fight for the families in Glendale, Maspeth, Middle Village, Ridgewood, Woodhaven, and Woodside. These are some of the best communities in New York City and together, I know we can continue strengthening our neighborhoods.
