

27th City Council District

I. Daneek Miller (D)

Good Day, I am Daneek Miller and I ask for your vote for City Council. I serve as President of Amalgamated Transportation Union 1056 which represents MTA drivers and mechanics. I spent my lifetime fighting to improve people's lives and the neighborhoods in Southeast Queens. As a labor and community activist, I know the power of building coalitions to get results. This includes successfully restoring bus service, including the Q27 and Q42. My involvement also includes working with Southern Queens Parks Association to improve our parks and provide educational and social opportunities for our young people. I am also active with Brothers Unlimited and United Black Men of Queens. As your Council Member I will work to improve education in our neighborhoods schools. I am a product of public schools; my children attended them; I want every child in every school to have the best possible education. In the Council I will fight to put funds in the City budget to make improvements in our neighborhoods. I pledge to fight to make them better places in which to live. This also means that people must have access to good paying jobs. And it means that elected officials must be accountable to everyday people, not wealthy donors. I have lifetime of fighting for Southeast Queens. I offer my experience and my work as a coalition builder who knows how to deliver results. I look forward to working for you and with you as your new Council Member.
